DIRECTOR: WHITE HOUSE SITUATION ROOM

25X1

SUBJECT: CAMBODIA--THE MILITARY SITUATION

The Khmer Communists have not followed up their February 11 artillery attack on Phnom Penh. The situation along the capital's southern defense line remained unchanged yesterday with both sides exchanging mortar and small arms fire. Government artillery and air attacks are being carried out against a Communist concentration five miles northwest of Phnom Penh's airport in advance of a renewed Cambodian Army counterattack into this area.
